The Student and Exchange Visitor Information System (SEVIS) for J-1 Exchange Visitors

Your Instructor

Ron Cushing has served as the Director of International Services at a large urban research university with over four thousand of international students for more than twenty years. Ron has served as a mentor to over a thousand colleagues through his Fundamentals of Foreign Student Advising seminars. Immigration Concepts has been providing training to international education professionals for two decades. Ron has been honored by NAFSA, Region VI, with the Leo Dowling Award of Excellence for his “compassion, integrity and leadership” to the field of international education.

Topics to be Covered

- Institutional reporting responsibilities for SEVIS
- DS-3037 updates, recertification, and DS-3097 Annual Report
- How to manage SEVIS alerts
- Creating and maintaining SEVIS records for Exchange Visitors
- Step by step instructions on how to use all aspects of the SEVIS system

Introduction

SEVIS is an Internet based application for electronically tracking and monitoring J-1 Exchange Visitors in the United States. In order to enroll or host J-1 Exchange Visitors, institutions must be certified for SEVIS operation and comply with SEVIS reporting responsibilities.

Failure to comply with reporting responsibilities will lead to decertification of the institution to enroll international students or host exchange visitors and potential penalties to the Responsible Officers up to and including imprisonment.

SEVIS Real Time Interactive (RTI)

Institutions with large exchange visitor populations will want to report the required data through “batch” processing whenever possible. However, even larger institutions that “batch” report data will use “Real Time Interactive” or RTI to report certain events or make particular authorizations.

How to Operate SEVIS

The web address for SEVIS is:
<https://egov.ice.gov/sevis>

Notice: This is the SEVIS Beta site.

Amending the DS-3036 or DS-3037

Certain fields can be updated without DHS adjudication. If the update does not require adjudication by the DHS, SEVIS will inform you that the update was completed successfully. However, if a submitted change requires ICE approval you will receive notification that the request is approved, denied, or further evidence is needed at a later date. All changes to the DS-3036 or DS-3037 should be made by the Responsible Officer (RO). If the RO ever leaves your institution or organization, he or she should assign the RO role to an existing ARO. The new RO can then delete the previous RO from SEVIS. You will receive a confirmation message once the update is submitted.

Requesting DS-2019's

Registering for Batch Processing

SEVIS functionality allows institutions to batch report many pieces of data including validating program participation, changes to names, address, etc. To batch such information you have to upload a digital certificate to the system. When clicking the “Register for batch processing” button you will be prompted to accept the terms of batching. Click the “accept” button.

ACCEPTANCE OF DHS REGULATIONS AND SEVIS BATCH INTERFACE SECURITY REQUIREMENTS

By selecting the "ACCEPT" button at the bottom of this screen, I acknowledge and accept the following DHS regulations and security requirements for using the batch interface of SEVIS.

I have read and will comply with the following DHS regulations:

- relating to students, 8 CFR 214.2(f), 214.2(m), 240.1(c), 240.1(d), 240.3(b), 240.3(d) and 214.1(b);
- relating to school approval and withdrawal, 8 CFR 214.3 and 214.4.

I understand that use of the SEVIS Batch Interface does not exempt me from compliance with the above mentioned regulations, nor from reporting any additional information required in using SEVIS. In utilizing the SEVIS Batch Interface, I will assure that, to the best of my knowledge, information submitted is accurate and conforms with these regulations.

I recognize that the security requirements below supplement, but do not replace, the security requirements specified for use of the real-time interface.

- Obtain and use a Class 1 digital certificate for session authentication.
- Protect that digital certificate by:
 - storing the certificate on the server with a strong password;
 - ensuring the password is not available to unauthorized individuals;
 - securely storing the password in a sealed, signed envelope that is then stored in a locked cabinet or safe;
 - delegating responsibility for re-initializing the server to a trusted individual
 - who has his/her own SEVIS UserID and password, and
 - who has access to the locked cabinet or safe where the password is stored.
- Protect the data elements used to compile the Form I-20 or Form DS-2019.
- Report to SEVP any suspected compromise of system data or access accounts.

Managing Alerts

The alerts function is provided to give the RO/ARO advanced notification that something in SEVIS needs to be done or that something is going to occur. In most cases, these alerts are indicators that, according to the information currently in the system, the exchange visitor's status will change if some action is not taken within a certain number of days. If no action is taken, the system will automatically take action. For example, if a RO does not validate a program when a new exchange visitor arrives, SEVIS will generate an alert that the exchange visitor is now past the start date. In other cases the alert may be an indication that an administrative function needs to be performed. For example, the allotment of DS-2019's is close to being used up and more need to be requested.

Managing Alerts

The key for an RO/ARO, particularly the RO, is to know that the alert link exists and that he or she must click on it regularly to view the alerts and follow-up accordingly. Understanding what each alert means is important so a plan of action can be determined. Some alerts require immediate action while others may not require any action by the RO/ARO. You will only see an alert show up on the alerts screen if an exchange visitor or situation meets the criteria for the alert. Some weeks you may have multiple alerts while others you may have none.

The following alerts deserve your attention:

34 DS-2019 Allotment(s) Remaining

You have 4 Saved Record(s) Not Submitted for 15 Days

Reports

SEVIS will allow the RO/ARO to run reports on various data within SEVIS for its exchange visitors. The RO/ARO will click on the “Reports” link. The RO/ARO will select a format for the report. The options are “HTML” or “Text”. The RO/ARO can run reports on exchange visitors, by category, by country, etc. It is here where the RO will also run the required annual report. Each program sponsor is required to prepare a report on exchange visitor usage. Sponsors working on the academic year submit their annual report during July, those working on the fiscal year submit their report during October, and those working on the calendar year submit their report during January. The RO/ARO should click on the desired report and hit the “submit” button.

Search Functionality

An RO/ARO can search for an exchange visitor within SEVIS by using the “Exchange Visitor Search” link. The RO/ARO can select a “Sort By” for the search (family name, etc.). The RO/ARO can then search based on a number of data including SEVIS ID, family name, first name, date of birth, country of citizenship, etc. You can also search by status (active; cancelled; completed, deactivated; initial or terminated). When the desired search data has been entered the “search” button should be clicked. When searching by name the RO/ARO must select the search status type (active; initial; terminated, etc.). Searching by SEVIS ID is the quickest and most accurate way to locate an Exchange Visitor.

Alternating Between Categories

SEVIS recognizes that some visitors may spend time teaching versus conducting research and considers the Professor and Research Scholar categories to be interchangeable. The SEVIS functionality allows the RO/ARO the ability to alternate the official status of the EV based on the primary activities being conducted at the time, thus changing the category for the EV. Clicking the “Alternate Between Professor and Research Scholar” button changes the primary activity back and forth as necessary.

Changing Program Categories

As indicated previously, the Professor and Research scholar categories are considered to be interchangeable. However, an exchange visitor is not permitted to move from one category to another (i.e. student to research scholar) without the approval of the Department of State. Such a change requires submitting a formal request, with fee, to the Department of State for consideration. In such cases the RO/ARO would need to use the "Change of Category Request" in SEVIS to indicate the new category being requested. You will enter the new category, subject field, subject description, program dates, and update the sources of support. When done click the "submit" button.

Please note that while this functionality exists, the Department of State rarely approves such requests.

Shortening a Program

The Shorten Program for EV link is to be used under various circumstances to indicate that an exchange visitor program will end prior to the original end date indicated on the DS-2019 (program objectives completed early, culture shock, death, inadequate financial support, medical emergency, withdrawal from program, etc.). The RO/ARO should shorten the DS-2019 appropriately when an earlier end date is necessary. To shorten a program click the “shorten program for EV” link, use the drop down box to select the reason the program is ending, indicate the new program end date, enter remarks, and click the “shorten program for EV” button.

When the program sponsor and the exchange visitor want the program to continue beyond the current end date, provided the maximum time allowed for the J-1 category has not been reached, the RO/ARO can extend the program for an exchange visitor. The RO/ARO should click the “extend program within maximum duration of participation” link. Enter the new end date, add remarks if necessary, and click the “extend program” button. Print the new DS-2019 for the exchange visitor. Keep in mind if any other information needs to be updated at that time (sources of financial support, etc.) the RO/ARO will need to update those sections of the SEVIS record as well.

At this step you are completing the same steps as when you are creating a new initial DS-2019. The only difference is you won't be able to alter the end date yet. You must complete the DS-2019, validate the program, then complete a program extension if more time is desired and available to the Exchange Visitor.

Special Functionality for Students

Within SEVIS there is special functionality that will only appear on the record of an EV in the “student” category. The special functionality includes: matriculation; add student employment; add student academic training. RO/ARO’s must understand this functionality for EV’s in the student category.

Matriculating Students

The “matriculation” link in SEVIS is used to advance students from one degree level to another. Use the drop down box on the matriculation line to select the new level of study and the new program end date. If sources of financial support are changing as a result of the change in degree you will need to update that section of the student record as well.

Adding Student Employment

All student employment for J-1 exchange visitors must be entered into SEVIS, including on-campus employment. Click the “Add Student Employment” link and enter the name and address of the employer. You must indicate the hours worked per week (not to exceed 20 hours per week for on campus work) and the start date and end date of the employment. You can only enter up to one year of employment at a time, even for graduate students who are expected to work on campus for multiple years. Use the drop down box to select the employment type (assistantship; fellowship; off-campus; on-premises; or scholarship). Note that unlike F-1 students the RO/ARO has the ability to authorize off-campus work for economic necessity. If that is the type of employment being authorized you must use the “off-campus remarks” box to indicate why the employment is necessary. Academic training should not be authorized in this section. There is a separate section for academic training authorizations.

Academic Training

J-1 students are entitled to Academic Training under the following circumstances:

- 18 months for a bachelor's or master's degree
- 36 months for a doctoral degree
- Equal amounts based on time spent studying for non-degree students (not to exceed 18 months)

Academic training can be used during a program of study or after program completion. For doctoral students, only 18 months can be authorized during the program of study. The student must complete the degree to become eligible for the full 36 months.

The Academic Training employment must be directly related to the student's program of study. If academic training is being authorized following graduation, it must be authorized before the DS-2019 end date.

Academic Training

To authorize Academic Training the RO/ARO must click the “Add Student Academic Training” link. Next enter name and contact details for the supervisor at the place of employment, the name and address of the employer, the number of hours a week that will be worked, the start date and the end date for the employment, and describe the objective of the Academic Training. Click the “Add Student Academic Training” button when done and print the new DS-2019 and provide it to the student. The DS-2019 will show the name and address of the employer and the dates of employment.

Reinstatement

If an Exchange Visitor falls out of status an RO/ARO does have the ability to help the EV apply for a reinstatement to status with the Department of State. There is a \$367 fee associated with a reinstatement that must be paid by the institution using a [pay.gov](https://www.pay.gov) account. If the circumstances warrant an application for reinstatement the RO/ARO will click the “Reinstatement – Update SEVIS Status” link. Next you will indicate that you want the status set back to “active”, enter a new program end date, update the U.S. address (if necessary), and explain the violation and circumstances supporting the reinstatement. Click the “submit” button when done. You should collect and be able to present documentation surrounding the violation of status in case you are asked for it by the Department of State.

Redesignation

Exchange Visitor Programs are approved to operate for a specific period of time. Program sponsors may seek redesignation for another 2-year term by:

1. Submitting a redesignation request in SEVIS 3 months in advance of the program's designation expiration date.
2. Paying the required non-refundable fee (22 CFR 62.17, Fees and Charges) via the [Pay.gov](#) website (currently \$3,982).
3. Submitting a copy of the signed Form DS-3036, supporting documentation, and a copy of the [Pay.gov](#) confirmation page showing payment of the fee to DOS.

Redesignation

Six months before a program's approval to operate expires, SEVIS will provide an alert indicating that the program's designation expiration date is nearing. Another alert will display 3 months prior to the expiration date. Both alerts will include the program's expiration date. SEVIS does not send email notification for alerts. You must use SEVIS to view and process alerts.
